

The Gold Compound methods

**By Dr. Silvia Maggioni,
Senior Researcher, Laboratory of Environmental Chemistry
and Toxicology, IRCCS-Istituto di Ricerche Farmacologiche
"Mario Negri"**

An overview on the work, performed within ToxBank project on the development of analytical methods for Gold Compounds.

The tutorial will show you ToxBank's work on the development of analytical methods for measuring stability and availability of the Gold Compounds in in vitro test conditions. The tutorial also gives you information on the uploading and availability of protocols and data in ToxBank Data Warehouse
